I'm a Physicist and That's Just Fine

Little Miss Nonfat

Math Class: or, Does the Zero Have Buddha-Nature™?

What I Hear After Submitting A Score

Vocal Score

for Baritone,
SATBariB Chorus,
and Two Pianos

Bill Robinson

STRANGE SONGS

for Bass or Baritone, SATBariB Chorus, and Orchestra; Vocal Score with 2 Pianos

1979—Sept. 9, 2010; March 19-April 19, 2012; Feb. 15—March 12, 2024
Duration: 19 minutes

This is a collection of four vocal works; these are much expanded from original chamber versions during the summer of 2010 and spring of 2012, then revised in 2024.

In 2004, as I was about to graduate with a BS in physics from NCSU, I wrote an odd little poem called *I'm a Physicist and That's Just Fine*. Not long after, I set it for baritone and piano. The arrangement here is much longer and more complex than the original song.

I attended a macrobiotic meeting in Boston in 1979 where there was to be an entertainment at the end given by attendees. I quickly wrote *Little Miss Nonfat* as a composition that anyone who could read music could perform; it was for spoken chorus in four parts. However, my search for performers was in vain. This orchestral version is far longer and more involved than the very simple original, which was under two minutes long.

Until February 2015, *Strange Songs* included *Der Jammerwock*, a setting of Robert Scott's 1872 translation of *Jabberwocky* into German. This is now withdrawn; perhaps someday I will try it again.

Math Class: or, Does the Zero Have Buddha-Nature™? started off in 1982 as a companion spoken chorus piece to *Little Miss Nonfat*, also in four parts, written after a year as a physics and math major at North Texas State University. It also is much expanded in this version for chorus and orchestra. I added this to the first edition in 2012.

In the summer of 2003, I was doing physics at the University of Michigan at Ann Arbor, and decided to write a satirical song about the decades of rejection I had suffered from musicians. Thus, I dedicated *What I Hear After Submitting A Score* to the many musicians who gave me so much material from 1984 through 2005 by turning down my music because it was too easy, too hard, too long, too brief, too classical, too popular, too modern, too old-fashioned, too secular, too religious, too fast, too slow, too serious, too humorous, they're busy playing something else, or in short, *because I wouldn't give them money.* Thankfully, since 2006 things are much better and I have found some wonderful performers.

For chamber performances, musicians can use either this vocal score, or the version for piano quintet, baritone, and SATB chorus (one singer on a part).

Commissioned *inscientibus, ex post facto, sub rosa* by
Stephen Reynolds and Susan Osborne, July 2020

I’m a Physicist and That’s Just Fine

I’m a Physicist and that’s just fine—
It’s much better than a life of crime.
If you really want to see me sneer,
Just imply I’m an engineer.

I fuss with numbers transcendental;
When I was young they called me
mental.
If it can’t be measured, it don’t
exist—
In this here science, that’s the gist.
We need evidence, with fame for
finders.
For spooky things, we’ve got on
blinders—
UFOs and GHOSTS and prayer,
Hippies, preachers, tall blue
hair.

I’m a skeptic, tried and true;
My origin is Cosmic Goo.
I can calculate the odds,
Which, *though Zero*, admit no Gods.

I sit inside and study all day;
My eyes are dim, my skin is gray.
My way with women is legendary—
I’ll meet one someday, don’t mean
maybe!

I’m a Physicist and that’s just fine—
It’s much better than a life of crime.
From Giga to Femto, from Cosmos
to Quark,
One man’s Genius is another man’s
Dork.
If Dork I must be, then Dork I must
be;
The Answer to Everything is—
Twenty-three!

Bill Robinson January 2004

What I Hear After Submitting a Score

Solo: Well-versed in matters Physical,
Your attitude is Mystical.
We cannot play without some Pay
That, or your left Testicle.
Chorus: We cannot play without some Pay
That, or your left Testicle.

Solo: With claims to be Devotional,
Your morals are Contortional.
We cannot play without some Pay
And also Tips, proportional.
Chorus: We cannot play without some Pay
And also Tips, proportional.

Solo: In Theory you're a dumb-dumb;
A Doctorate you have none.
We cannot sing without that thing
Called Money, in a lump sum.
Chorus: We cannot sing without that thing
Called Money, in a lump sum.

Solo: Your Music has no Power;
Your face is set to glower.
You've been to jail,
You're going to fail—
You really need a shower!
Chorus: You've been to jail,
You're going to fail—
You really need a shower!

Solo: You sometimes write for Trumpet;
You'd rather have a Strumpet.
We have your Score,
Now pay some more
Or we shall surely dump it.
Chorus: We have your Score,
Now pay some more
Or we shall surely dump it.

Solo: You want a pity party;
Your counterpoint is sorry;
You wear a frown,
You're zipper's down
Where is your Check? It's tardy!
Chorus: You wear a frown,
You're zipper's down
Where is your Check? It's tardy!

Solo: No funding is your excuse;
Your Music can find no use.
It's as we feared,
You're just too weird—
Your Score is in the Refuse!
Chorus: It's as we feared,
You're just too weird—
Your Score is in the Refuse!

Bill Robinson

Performance notes

At the end of the piece, the conductor should hold his/her nose and dump the score into a wastebasket.

All accidentals hold through the measure and not beyond, and do not apply to octaves.

When notes below low E are written for the Double Basses, I include a complimentary note an octave up to be played by those without extensions.

I wrote rather thick orchestration behind the baritone soloist, with the assumption that high-quality amplification would be used. In the case of very small numbers of singers for the chorus, these singers also may be amplified.

In the case that a chamber performance is preferred, Strange Songs can be performed with the vocal score and its two-piano accompaniment, or with the version for piano quintet and singers.
